

SECOND SET OF DOCUMENT AND INFORMATION REQUESTS OF  
THE DEPARTMENT OF COMMUNICATIONS AND ENERGY TO  
BOSTON GAS COMPANY, COLONIAL GAS COMPANY AND ESSEX GAS COMPANY  
D/B/A KEYSpan ENERGY DELIVERY NEW ENGLAND

D.T.E. 04-62

Respondent: Elizabeth Danehy Arangio

Information Request DTE 2-6

- Q. Refer to the Prefiled Testimony of Elizabeth Danehy Arangio, Pages 11-12. What is the Company's capacity entitlement on the Hubline project? Was this capacity acquired to serve all of KeySpan's customers, or to serve a specific customer sector? If for a specific sector, please identify the sector.
- A. The Company currently holds contractual entitlements to 45,000 MMBtus/day on the HubLine Project. This capacity was acquired by two contracts, one between Algonquin Gas Transmission Company and Boston Gas Company and one between Algonquin and Colonial Gas Company. Although the contracts are held on an individual basis by Boston Gas and Colonial Gas, the resources available under these contracts are used on a pooled basis to serve all customers on the system.
